Key Issues Before Obama's Labor Board

Girl Scouts + Santas

- Goal: let unions have access anywhere other charities (Salvation Army Santas, Girl Scouts, etc) are allowed to solicit
- Result: would force retailers, office managers to prevent ALL charity sales or face rampant union activists
- Cost: major damage to charities, morale, or face legal bills

NLRB Case No. 30-CA-17185

Poster Rulemaking

- Goal: force employers to run ads for joining a union
- Fine print: no info on workers' rights to vote out a union they don't like, withhold payment of any union dues spent on politics, and refuse to pay for the union's unwanted services in the 22 Right to Work states.
- Result: 100M Americans see ads promoting unionization, which goes up
- Cost: 6M workplaces must *advertise against their own company*, and then run their own ads to set record straight

Proposed rulemaking: NLRB-2010-0011-0001

Micro-Unions

- Goal: reverse 50 years of precedent to let unions cherry-pick union activists and bypass “no” votes
- Result: swarm of micro-union drives against small businesses
- Cost: frustration, confusion, **more** accidental legal violations

Pushing Back

- Hold Obama nominees accountable
- Look at NLRB funding
- You have to be **more** social to win
- **Educate and motivate** your friends and family to vote Free Enterprise
- Don't preach voter abstinence—*just safe voting*
